

PRO Series™

Battery Watering Guns

Automatic Shutoff Makes the PRO Series™ Battery Watering Gun the Safety Tool that Pays for Itself

Easy to operate

- Compact and lightweight
- Attaches to any standard hose
- Just set the level and squeeze the trigger till automatic shutoff
- Shutoff is so positive, you feel it — gun stops filling the moment the electrolyte reaches the correct level
- 2 gal./min. flow rate is faster than manual filling yet gentle enough to fill a coffee cup

Fast payback

- No installation cost
- No maintenance adjustments needed — ever
- Reduces labor costs up to \$100/year for each 18-cell battery
- Eliminates costs related to overflowing, acid adjustment and battery damage

Ask about our full line of matching battery maintenance products, including water supply carts and battery water purification systems.

The safe way to maintain batteries

- Keeps eyes and face away from acid
- No backaches from bending over to service batteries
- Insulated to prevent sparking on connectors

Reliable performance

- Patented shutoff action tested for 1 million cycles with no loss in performance
- Powered by the water itself — no solenoids, electronic sensors or wiring
- Thousands of satisfied customers worldwide — customers as tough as you are

EnerSys®
Power/Full Solutions

Battery Watering Guns

Each Battery Watering Gun has a 2 gallons/min (8 liters/min) flow rate and is insulated against short circuits.

Model 92755

The Original

- 7/8" (22mm) nozzle fits most industrial, stationary and golf cart batteries
- Automatic shutoff & pressure regulator

Model 92755-G

Fits Truck, Bus and Diesel Starter Batteries

- Narrow 5/8" (16mm) nozzle fits small vent openings
- Automatic shutoff & pressure regulator

Model 92755-LR

Fits Where Access Space Is Limited

- Narrow 5/8" (16mm) nozzle fits small vent openings
- Steeper bend in the nozzle fits applications with restricted access
- Automatic shutoff & pressure regulator

For Railroad Diesel Starter Batteries

- No need to remove cells from their compartments
- All the features of Model 92755-LR plus a removable 9" or 24" extension

Model 92755-STAT

For Transparent Jar Stationary Batteries

- Gun operates outside the cell and does not have automatic shutoff
- Cone-shaped nozzle injects water through funnels of the flame arrestor vents, you can service battery without removing vent caps
- Manually adjustable flow throttle

Extensions Available for Every Model Gun

- Extensions easily removed without tools

9" extension

24" extension
